

The 5th Annual

JA STUDENT STOCK MARKET CHALLENGE

November 10, 2011 at the Arizona Biltmore Resort

9:00am - 12:15pm

Participation is FREE!

This innovative Junior Achievement (JA) program begins with **Take Stock in Your Future**, two 55-minute lessons about the basics of the stock market taught by a Junior Achievement volunteer. Then, students put classroom lessons into action during a simulation of the NYSE, engaging in fast-paced, friendly competition -a day they won't forget! The volunteer returns to the classroom afterwards to help students analyze results and increase their personal financial capability.

The JA Student Stock Market Challenge

- Provides a hands-on opportunity for students to learn about investing and trading! Trading is fast, fun and furious: a new day starts every 60 seconds!
- Simulates the floor of the New York Stock Exchange (NYSE).
- Each team will be issued \$500,000 worth of mock stock to buy and sell during 60 days of trading, all within a few hours.
- Teens from various Arizona schools compete to create the highest net worth.
- On-site traders with PDAs make buying and selling instantaneous. Trades are reflected immediately on the three large projection screens that track stock prices, team standing and graphical depictions of stock performance.
- Space is limited, so sign up today by returning your **2011 PARTICIPATION AGREEMENT!** Teams are comprised of 4-5 students each.
